I typically work on one family line at a time. Which family surname would you like to explore first?

In order to help locate religious records, please tell me if you are aware of any religious affiliations in that line of your family (e.g. Jewish, Catholic, etc.).

Are you aware of anyone in this family line who served in the military or during a war?

Do you know any of the occupations in this family line?

What are you most interested in knowing about this family line?

Have you created a tree on Ancestry.com? Have you taken an Ancestry.com DNA test?

Is there anyone in your family still living who is the “family genealogist”? Please provide contact info if they are open to answering questions that might come up during my research.
